BRICK PAVER

Yoddha Fly Ash Bricks

DESCRIPTION

Fly Ash Bricks are high-strength, eco-friendly bricks made using fly ash, cement, sand, and water. They are an excellent alternative to clay bricks, offering durability, cost-effectiveness, and sustainability. These bricks reduce environmental pollution by utilizing industrial byproducts while ensuring superior strength and thermal insulation.

FEATURES & BENEFITS

High Compressive Strength
(up to 10 MPa)

Lightweight, Reducing
Structural Load

Uniform Shape and
Smooth Finish

Low Water Absorption,
Preventing Dampness
